

WHAT IS BCB?

BUILDING CULTURAL BRIDGES

Namibia

Beginning as a Peace Corps project in the Republic of Namibia, students connected with their peers in New York to share culture and work on PBL projects.

New York

Through these initial connections, students created cookbooks, songs, and skits to share each other's culture. Concluding with a visit to the USA by Namibian teachers.

Polynesia

We saw an opportunity to connect Hawaii to Polynesian islands to create a deeper cultural understanding and promote island sustainability through PBL projects.
